

SCRA BIENNIAL PRE-CONFERENCE WORKSHOP **JUNE 25TH 2019 9AM-4PM**

Radical Being: Creating Decolonial Communities of Resistance

We, those of us who are hosting this pre-conference event, including the Racial Justice Action Group (RJAG), have gathered together around shared concerns with creating conditions of decolonial justice, honoring the struggles of our communities and our ancestors. In this pre-conference event, we hope to create communities of resistance and healing, and are committed to honoring a space where we bring in our storied and embodied selves. In doing so, we hope participants in this pre-conference will come with moral courage, authentic humanity, and openness to work together to create brave spaces throughout our circles and praxis. We expect all participants will come and engage in creation of the guiding values for the event and we will hold each other accountable to these values. We are energized by the ways in which this event presents an opportunity for us to begin together in shared journeys for decolonial praxis and collective healing towards radical possibilities.
