

**You're invited | Frontiers Forum | Healing the world's cities with Kongjian Yu**

**From:** [Ilene Serlin](#)

Dear Ilene,

Meet the man leading the green transformation of our cities at the fourth [Frontiers Forum speaker session](#) – where thousands across the Frontiers community come together to experience and debate cutting-edge solutions for healthy lives on a healthy planet.

**Professor Kongjian Yu** will show how ancient Chinese wisdom and modern science is solving environmental problems while providing beautiful living spaces.

Kongjian is a world-renowned landscape architect and a leader in ecological planning and design. His nature-based approach to urban planning is implemented in over 200 cities in China and beyond, and has significantly impacted national policies for improving the environment in China.

His talk will be followed by a lively discussion with a cross-disciplinary group of scientists and other experts. You too can join the global conversation with more than 3,500 peers from all areas of science, policy and industry. See the full program, as well as upcoming speakers, [here](#).

**Healing the world's cities | Thursday 27 May 2021**

*07:00-08:30 Los Angeles | 10:00-11:30 New York | 16:00-17:30 Paris | 22:00-23:30 Beijing*

Kongjian Yu | Founder & Dean, Graduate School of Landscape Architecture, Peking University
