

Hello Task Force IP friends,

I am currently teaching a graduate course on Indigenous Psychologies at the University of the Philippines (UP). It's the first one at UP. They have Philippine IP (Filipino Psychology) as a course in the undergraduate and graduate level, but not IPs.

I'm not sure how far we have gone in terms of teaching IPs at universities and colleges.

Do you know of any other university/college that offers this course?

Thanks!

best wishes,

Rogee
