

Dear Division 24 (STPP) members,

At long last, we are ready to present our first webinar in the new STPP *Early Career Speaker Series*, in which early career members and students of the society will present their current work to the audience while a senior member provides feedback and facilitates discussion. After the presentation and response, we will open up the (virtual) floor for discussion among attendees.

Our first pairing will be *Basia Ellis* presenting her work —“THE PSYCHOLOGY OF MIGRANT 'ILLEGALITY': A GENERAL THEORY”— with *Thomas Teo* (STPP Past President) acting as discussant. Basia’s abstract is attached along with her bio.

This program will last one hour and will commence at **4 PM to 5 PM EST on Tuesday, March 30, 2021**. We will be sending out a reminder with the login information to all who register on the day of the event. I will serve as moderator.

Register here: <https://forms.gle/SvbVvNfb429R9wG26>

Looking forward to seeing your faces at this new program.

I would also like to thank Erin Thrift for all of the work she put into developing our fall/winter webinar series of presentations, which was a continuation of her fine work on the virtual hospitality suite program for 2021.

Best wishes,

Scott Churchill
STPP President
