

Science of the Soul

From: ["Dr. Judy Kuriansky" - drjudyk at aol.com \(via iptaskforce list\)](mailto:drjudyk@aol.com)

Hello colleagues,

I hope someone knows a referral for counseling in Kinshasa DRC. It is for a priest who lives in Kinshasa. My friend, also a priest (who was on my team as a United Nations NGO representative), is this priest's colleague, who will be in Kinshasa this week only for two days, to help set up the counseling.

Then, my friend is flying to Kinsangani where he is going to lead workshops for priests and seminarians on emotional health.

He urgently needs a contact for some psychosocial support for this colleague.

I would greatly appreciate a return email or call in New York (917) 224-5839. I am copying my colleague, Father Wismick, who is actually living in Rome now.

I have a project in Congo, but it is in South Kivu, which is far away in the country. I am an NGO representative of psychology NGOs at the United Nation.

I hope you know someone, or "someone who would know someone." Please respond to me urgently. It would be much appreciated.

Thank you.
Judy
