

"Synergy, Healing, and Empowerment is an incredible book." Stanley Krippner

Synergy, Healing and Empowerment

Insights from Cultural Diversity

RICHARD KATZ & STEPHEN MURPHY-SHIGEMATSU

Invaluable guidance in the pursuit of a just society

Guided by the concept of synergy, this ground-breaking collection explores alternatives in the areas of counseling, education, and community health and development. Drawing upon the diverse cultural experiences of Aboriginal groups in North America and around the world, these compelling narratives provide practical insights into the emergence of synergy, whereby valuable resources, like healing, can become expanding and renewable.

About the Authors

Richard Katz, PhD, received his doctorate in clinical psychology from Harvard University and taught there for nearly 20 years. Dr. Katz is currently Professor Emeritus at the First Nations University of Canada and an adjunct professor in the Department of Psychology at the University of Saskatchewan.

Stephen Murphy-Shigematsu, PhD, is a consulting professor in the Stanford University School of Medicine, teaching in the Arts, Humanities, and Medicine Program. He is also in the faculty of the Center for Comparative Studies in Race and Ethnicity at Stanford.

"Synergy, Healing, and Empowerment is an especially important book. By pushing the envelope, it shows us the direction counselling and psychotherapy must go."

Paul Pedersen, PhD, pioneer scholar in multicultural counselling
