Subject: Ukraine refugees / study

Dear Louise,

I am part of an international research group on resilience . We are presently carrying out a survey in order to better understand the needs and conditions of refugees from Ukraine:

Please find attached a PDF file with a QR code, which can be shown to Ukraine refugees, so that they can log in to the survey with their smartphones. The file can be printed out and posted in places where the refugees can see it, or it can be forwarded to them, or one could present it on a smartphone, tablet etc.

Please feel free to forward this to colleagues of relevant APA departments or other institutions. This would be very helpful, as the survey is going to specify how to help the Ukraine refugees in an efficient way.

Thanks and all the best,

Arnold
