

[DIV32ANNOUNCE] APA Handbook of Humanistic & Existential Psychology - Use in 2026 Courses

The *APA Handbook of Humanistic and Existential Psychology* is due to be released in digital form in December 2025 and print in February 2026. For those teaching courses who would like to consider using chapters in courses, you can request that your library purchases the electronic copy in advance. It will be available for courses beginning in January. I attached the Table of Contents. If you are teaching a course beginning in January or February where you are considering including a chapter from the *Handbook* in the required reading, I have permission to provide electronic copies of chapters to help you determine if you want to include the chapter in required readings. *I can only provide these if you are confirmed to teach a course in January where you are considering including a chapter*, per agreement with APA Books.

The Introduction and front matter is available at <https://www.apa.org/pubs/books/3843280-sample-pages.pdf>.

The book is also available for pre-order. If an APA member, you can receive a significant discount by directly from APA.
